

Covid 19 School Closures

All our schools are closed. We are providing a skeleton childcare provision in most schools but only for the children of critical workers and vulnerable children. This is a last resort option for parents who have no alternative. The Government message about staying at home is clear. The best place for children is at home so travel and contact is minimised. We thank all those staff in our schools for all they are doing both in schools and to help provide some continued learning. We appreciate the support from parents during this most challenging of times.
