

# Science - Keeping Healthy

This half term we will be concentrating our learning on Keeping Healthy.

Over the next few weeks we are going to be learning about what we, as human beings, need to survive. We will be learning about how our bodies work and what we can do to help our bodies to stay fit and strong.

# Science - Keeping Healthy

This week we are going to be thinking about Wants and Needs.

There are some things that we really need to survive and other things that we want to make our life more comfortable, but we don't really need them.

## Websites

BBC Bitesize clip and quiz about what animals need to survive:

Cartoon that explains the difference between a want and a need: <https://www.youtube.com/watch?v=-k-nKtQ2Baw>

# Science - Keeping Healthy

Imagine that you were stranded on a desert island... What would you need to survive?

## Suggested Activities

1. Create a fairy/pixie house in your garden with everything that they will need to survive.
2. Make a list of items around your house and decide whether they are a want or a need. Did you have more 'wants' or 'needs'? Were you surprised by what you found?
3. Make a poster to explain the difference between 'wants' and 'needs'. Include some examples of both. You could draw them or cut out pictures from a magazine.

# Art-Pablo Picasso-Portraits

Don't forget to share your work with us on Class DoJO!

Pablo Picasso was a very famous **cubist** artist. Watch this clip to hear a short story about Picasso's art:

<https://www.youtube.com/watch?v=KOu-y8UggzE>

Have a go at making your own self portrait. Can you make it look a bit different by using bold colours, interesting shapes, unusual materials or different perspectives?
